<b>Target version:</b>	MVC for 0.6	<b>Spent time:</b>	0.00 hour
<b>Branch:</b>	master		
<b>Description</b>			
it would be great to have the possibility to dynamically change the number of instances of jcom.parameterArray (and message/returnArray)			
a possible message for this could be arraySize ?

#### History

##### #1 - 2012-11-11 04:12 pm - Pascal Baltazar

- Priority changed from Normal to High

also raising priority of this one a little, because it's the second one of my wish list

##### #2 - 2012-11-13 10:33 am - Julien Rabin

But you can already do this by renaming the array (address message) with a new instance number, cant you ? Admittely this may require an extra sprintfing step, but does it worth adding another attribute ? Dont know. Just thinking out loud.

##### #3 - 2012-11-14 11:39 am - Pascal Baltazar

- Priority changed from High to Low

Yes, I can !

Thanks for the hint, Julien.

Though I think it would be more straightwoward to have a size message, but maybe then it's not that urgent anymore (so I'm downgrading the priority of this issue)

##### #4 - 2012-11-14 07:29 pm - Julien Rabin

Yes, an arraySize message is probably less circumvoluted than an 'address' one to change a size...

##### #5 - 2013-02-14 01:39 pm - Théo de la Hogue

- Status changed from New to Resolved

- Branch set to master

I've added an array/resize message to all Array externals.

so no more sprintf or combine in your patch !
