

Max - Feature Request #1572

output~.module: Add ability to provide file name as argument to message

2013-04-16 11:14 am - Trond Lossius

Status:	Closed	Start date:	2013-04-16
Priority:	Normal	Due date:	
Assignee:	Trond Lossius	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Porting audio modules	Spent time:	0.00 hour
Branch:	master		
Description			
Currently we can hit the recording button in this module (the module is not yet ported to 0.6), but we are not able to provide an OSC message that specifies what file to record to, and start recording. In this respect the output~ module differs from the input module.
