

Modular - Bug #193

DSP flicker

2009-07-13 12:07 pm - Pascal Baltazar

Status:	Closed	Start date:	2009-07-13
Priority:	Urgent	Due date:	
Assignee:	Trond Lossius	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	2.00 hours
Branch:		OS:	
Description			
it is a problem caused by how the adstaus~ object is used in some moduls that under certain conditions cause conflicts that leads to audio bein turned on and off repeatedly.			

History

- Status changed from New to Closed

This is a duplication of issue 190, so I'm closing this one.

#2 - 2009-09-21 05:55 pm - Pascal Baltazar

- Status changed from Closed to Assigned

- Priority changed from Normal to Urgent

the flicker bug is back (maybe it never really went away...)

I experienced it with jmod.output~

maybe we should simply remove [p audio_on/off] and keep it in a safe place (or maybe just disconnect it until it really works ???)

#3 - 2009-10-25 09:51 pm - Trond Lossius

- Status changed from Assigned to Closed

Fixed in rev ed532a84.
