- Status changed from Assigned to Resolved

there is write/again and read/again message added to the model and jcom.preset

#2 - 2011-02-10 08:22 pm - Renaud Rubiano

I just had a crash 3 seconds after sending a "write/again" message to the jcom.preset

Before the write/again, the preset file had a preset.

After the crash, the XML file is empty, blank page without header.

here is the crash log
