

Tools - Feature Request #900

Create ruby script consolidating all ruby tests

2011-08-10 11:54 am - Trond Lossius

Status:	Closed	Start date:	2011-08-10
Priority:	Normal	Due date:	
Assignee:		% Done:	30%
Category:		Estimated time:	0.00 hour
Target version:	Consolidate test infrastructure	Spent time:	0.00 hour
Branch:			
Description			
As discussed at the BOD 2011-08-09:			
<ul style="list-style-type: none">- Do something like the build.rb script (call it test.rb) that would trigger all the other ruby test files- Add up all tests done, and all that passed/failed- One test.rb file per framework, and a grand master in the Tools folder			

History

#1 - 2011-08-10 11:57 am - Trond Lossius

- Tracker changed from Tasks to Feature Request

#2 - 2011-08-15 10:18 am - Trond Lossius

- Target version set to Consolidate test infrastructure

#3 - 2011-08-15 11:47 pm - Julien Rabin

- % Done changed from 0 to 30

#4 - 2011-10-13 05:10 am - Tim Place

I think the master test script should also call unit tests on all registered Jamoma classes. See the environment.test.rb file in the Foundation to get an idea of how this might be done.
